## Spirit Liquor Dispenser and Control System

Use of Digitot products and systems has illustrated that bar businesses lose up to 40% of sales to shrinkage through ineffective control procedures and management systems.

Take control of your profit margins effectively, efficiently and simply.

<b>FEATURES</b>	<b>BENEFITS</b>
Small attractive design (shelf or wall mounted)	Fits easily into any shape or size bar
Multi-size dispensing measure	Dispenses in accordance with criteria stipulated by Regulatory Authorities
Lockable bottle holder	Liquor cannot be diluted, stolen or replaced
Lockable dispensing devices	Eliminates after hours dispensing
Central Processing Unit	Data securely stored on-board
Prominent bottle display	Increases product visibility to boost sales
Events log	Records when a bottle is removed or replaced
Multi-level password protection	Prevents unauthorised entry into system

Rapid speed of dispense	Improved customer service
Point-of-sale/back office connectivity reporting	Quick and easy shift end reconciliations and reporting
Versatile Installation	Can be mounted on backing plate, shelf-mounted or wall mounted

The Digitot hardware and powerful Digitot Back Office system are configured to facilitate easy, seamless integration into any point-of-sale system or till system where that system generate an output file.

Manage your business in real-time, with Digitot’s flexible back office using reports on outlet activities for a selected period (i.e. shift/day/week/month/year) including:

- product dispensed by brand
- loss per brand at cost and selling prices
- inventory on hand
- average loss per bar staff centre
- product dispensed by revenue centre within an outlet
- product dispensed by outlet
- loss per outlet
